

Before being the beloved bar in Campinas, SeoRosa was the nickname of a natural monument in the city: A rosewood jequitibá tree that caught the attention of everyone who passed by.

Impressive numbers: 120 tons, 42 meters in height, and 6 meters in diameter. A work of art by nature that made history in Campinas.

But for the last 25 years, we have been making history with this name. SeoRosa is synonymous with entertainment, great cuisine, and cocktails.

The city's favorite is the perfect place for a good beer with friends, a date, a birthday party, a light, delicious lunch, and much more.

SeoRosa, the favorite.
